

About Us:

SEAMBooks Mobile Application is a digital platform made for authors and publishers who wish to help their books reach out to every individual in the world. In this new era of technology, we aim for reaching out to every student out there yearning to learn more.

It is not only a learning platform where students can choose the books of their respective course and study the provided textbooks which help them learn the concepts of the subject better and grasp knowledge but also grants the faction of teachers and publishers to publish and share content through a medium or platform.

SEAMBooks Mobile Application was released on 3th February, 2019 to provide students with better and improvised learning material. As of now, we are imparting books of Engineering and Commerce for undergraduate students of various Indian Universities. We are further planning to tie up with more renowned publishers and authors to furnish out more innovative ideas to come up with more books, academic as well as non-academic, which are easy to understand not only for students but also for readers of all age groups.
